

# AgSpares®

**eco**  
Parts

AgSpares used Tractor Parts are now covered by a 3-month warranty. If the parts that you purchase are found to be defective we will either replace the part or refund the purchase price. Claims must be notified to Agspares within seven days of the defect becoming apparent.

Warranty does not cover damage arising from incorrect fitting or adjustment, oil or fuel contamination, or electrical faults and is limited to the cost of the part we supplied. Please refer to [Terms & Conditions](#) for full details.

**Important:** If a component on your tractor has failed you must ensure that the cause of the failure is located and fixed, or the replacement part may fail because the cause of original fault has not been rectified.
