

AgSpares[®]

Keeping Tractors in Action

**3 MONTH
WARRANTY
on used Parts***

AgSpares used Tractor Parts are now covered by a 3 month written warranty. If our parts are found to be defective or faulty in any way we will either replace the part or refund the full purchase price.

Warranty does not cover damage arising from incorrect fitting or adjustment, oil or fuel contamination, or wiring faults and is limited to the cost of the original part.

Important: If a component on your tractor has failed you need to ensure that the cause of the failure is located and fixed, or the replacement part may fail because the original fault has not been diagnosed and repaired.
